Confidential/Draft/Pre-Decisional - No Not Release or Cite: Biological Evaluation

Mary,

Attached please find a redline version of our current changes to convert FDEP's Biologic Assessment to our Biologic Evaluation. In general, the edits made by the assumption team reflect the following:

- Changing the term from "Biological Assessment" to "Biological Evaluation" to accurately reflect the type of document federal agencies send to the Services to initiate consultation, and to distinguish this as EPA's document rather than the draft BA FDEP prepared as the non-federal representative.
- Removed/edited conditional/speculative language, e.g., "Should EPA request formal consultation with USFWS..." [Transmittal of the BE will initiate consultation.]
- Removed speculative language about what USFWS's Biological Opinion might contain
- Removed some unnecessary background about early coordination events (e.g., mention of meetings without any value-added outcomes)
- General formatting and language edits

Please let me know if you have any questions.

Thanks
jeaneanne
